NATIONAL SERVICE SCHEME (NSS)

NAME OF THE ACTIVITY	<u>GUEST LECTURE ON ORGAN, SKIN AND EYE DONATION</u>
DAY AND DATE	30 TH JANUARY, 2020
OBJECTIVE	TO SPREAD AWARENESS ABOUT ORGAN, SKIN AND EYE DONATION
RESOURCE PERSON	EXPERT FROM ROBN Skin Bank National Burns Centre Sector-13, Airoli,
TARGET AUDIENCE	STUDENTS
NO. OF PARTICIPANTS	150
TAKE AWAY	<ul style="list-style-type: none">• To spread awareness about ORGAN, SKIN AND EYE DONATION• In case of burns, SKIN – the primary protective barrier of the body - is destroyed and the body is exposed to infectious agents.• If the burnt area is not immediately covered with some skin substitutes, then patients are prone to infection, fluid loss and ultimately death.• In case of smaller percentage of burns (lesser total body surface area burnt), skin from the un-burnt area of the patient is taken out and put on the burn wound to cover it. But when burns percentage is more than 40% to 50%, then the patient's own skin is not available to cover the burn wound. In that scenario we need some skin substitutes.• It is said that skin is the best substitute for skin. Thus, Skin donated after death (cadaveric skin) is the best and cheapest substitute compared to artificial skin substitutes. Such skin is a temporary dressing. But, it is important as it helps in patient's own skin to regenerate. 80% of such patients can be saved if we have enough skin in skin bank. Thus arises the need of skin donation. One can donate one's skin after death to save someone else's life
